

Texting while driving is a serious problem on West Virginia's roadways.

FIVE SECONDS is the average time your eyes are off the road while texting; at 55 mph, that's enough time to cover the length of a football field blindfolded.

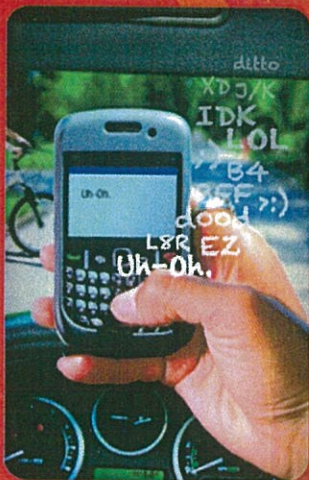

10%

TEN percent of all drivers under the age of 20 involved in fatal crashes were reported as distracted at the time of the crash.

71%

SEVENTY-ONE percent of young people say they have sent a text while driving.

What can **YOU** do?
Try the TextLimit App!

TextLimit is a cell phone service that will give you complete control over the features of the phone when it's moving. It also allows you to disable features, geo-locate the enrolled cell phone, select specific places where you want to limit the phone's features, receive speeding alerts, and so much more!

The WV Governor's Highway Safety Program has partnered with TextLimit to provide you with 1 year of FREE service with the coupon code above. For more information use the QR codes provided, or visit

www.TextLimit.com

Don't Take
a Chance
On Getting
a **DUI** or
Into a Crash.

Drive Sober West Virginia is a **FREE** App that you can use to:

- Help estimate your Blood Alcohol Content (BAC)
- Find a sober ride home if you have been drinking
- Report a drunk driver
- Learn more about West Virginia's DUI laws and Interlock Program

28% of all 2012 fatalities in WV were the result of a driver with a BAC over the legal limit.

In 2012, **10,332** people in the U.S. were killed in crashes where alcohol-impaired drivers were involved.
